PROFESSIONAL SUMMARY

Data Analyst with knowledge in data warehousing, process validation, and business analysis. Proven ability to understand customer requirements and translate into actionable projects. Dedicated and hard-working with a passion for Big Data. Curiosity for solving complex problems and delivering quality results to those inquiring.

PROFESSIONAL EXPERIENCE

Data Analytics Apprentice • Nashville Software School • Nashville, TN • 01/2021 – Present

- A four-month deep dive introduction to data analytics and business intelligence. Here I learned how to apply analytical reasoning on several platforms and be able to present findings utilizing real databases that are used today. Tools Learned: Excel, Python, SQL, Tableau, Power BI, and Git/GitHub.

Projects

Low Income and Elderly

- Created an interactive dashboard for a non-profit 'Hand Up American' to provide guidance on areas of emphasis for low income and elderly individuals.
- Analyzed 2016 tax data of all 50 states using advanced excel functions such as VLOOKUP, Offsets, and Pivot Tables.

Missouri Unemployment (Power BI)

- Designed a Fully interactive Dashboard Looking into separate demographics of unemployment in the state of Missouri and where the areas of focus need the most attention.

SKILLS

- Data Analysis
- Python (pandas)
- SQL (PostgreSQL, JOINS)
- Power BI
- Tableau
- Excel (Pivot Tables, VLOOKUP)
- Training expertise
- Git/GitHub
